1. UTILITY-FIRST PARADIGM OVERVIEW

Tailwind provides low-level utility classes like flex, pt-4, text-center, and rounded-2xl.

2. RESPONSIVE DESIGN BREAKPOINTS

- sm: 640px, md: 768px, lg: 1024px, xl: 1280px.
- Mobile-first approach: md:flex-row applies flex-row starting at 768px width.

3. GLASSMORPHISM & CUSTOM UTILITIES

- Combine bg-white/80, backdrop-blur-md, and border border-slate-200 for clean glass panels.
